To

Honorable Groupadi Murremu,
The President of India,
Rashtrapati Bhawan,
President's Estate,
New Delhi,
Delhi - 110004.

May it please Your Excellency the Honorable President
of India

Cordial Greetings!

I extend my heartiest congratulations to a teacher who became the Honorable President of India. My name is Chrisbin Liana. I am studying in VIII std., in Sacred Heart International School at Marthandam in Kanyakumari district. Your life history inspired me a lot and as a teacher you will know how to take care of your students like a mother. Now,

we all Indians are your children and we hope you extend the same motherly affection towards the citizens of India.

One of the pressing issue of our country is poverty. Though government implements very good social programmes to get rid of poverty from our country, we observe everyday the population of beggars around us is increasing. Reports say that a significant number of population is still going to bed without food.

I read The Hindu Newspaper dated 18 January 2022. It tells,

"It had been reported in 2017 by the National Health Survey that approximately 19 crore people in the country were compelled to sleep on an empty stomach every night. Moreover, the most alarming figure revealed is that approximately 4500 children die every day under the age of five years in the country. Due to hunger and malnutrition, over three lakh children die every year."

Government provides free food grains, free hospitalization, and many schemes to senior citizens and handicapped people. Then how did this all happened as mentioned in the newspaper? I think it's the failure of the service sector. Each area of India is constituted

by the Government service sectors like panchayat, town panchayat, municipality, revenue and health departments. It's their responsibility to find out the helpless poor people, beggars and help them to get the Government schemes.

Honorable President Madam, I want a beggar free India. As the first citizen of India you may initiate some steps so that the needy and poor population of India will get the benefits of the government. Let us together make India prosper and go forward in all walks of life. Let the poor cherish in your leadership as the President of India.

Once again I congratulate you for your great success in your life.

Thanking you with warm regards

Yours Sincerely,

07/08/22.

Suggestions for the DEWG G20 meeting:

1. COVID 19

Formulating a strong decision to overcome the collapse of human life and world's economy caused by the man-made COVID virus.

2. Agriculture

The goal to achieve "zero hunger (SDG 2)" is a great idea for the theme of this meeting. It is very essential to create a good future for the generations to come. Technology is very essential to achieve this goal. Government must take steps to bring all new technology in agriculture to the end users, ultimately the farmers, in an affordable way to achieve this goal.

3. Education

We raise the slogan "One Earth, One Family, One Future". Why not "One Education" for "One Family" instead of having a lot of Boards in the same country?

4. Environment and Climate Sustainability

The main reason for climate change is because of pollution caused by industries and transport vehicles. We learn that about 1.5°C increased in the last 250 years. These are all manmade disasters. G20 has suggested a project to find out a portable gas converter to convert things into powder bases. This must be implemented in industries and vehicles to convert harmful exhaust gases into solid blocks.

5. Start Up 20

India has a big pool of youngsters, more than half its population. In such a country start-ups are very important to create new entrepreneurs. It is very essential to motivate and guide the youth and give them the confidence to take start-ups. Service sectors can concentrate on this to identify young people and give them training and essential support to come up with start-ups.

Respected Sir/Madam,
I come up with my suggestions for the Lucknow DEWG G20 meeting. I have attached my suggestions in the PDF file given below.
Please go through it.

4/2/2023

My Letter to the Honorable President of India on 07.08.2022 was to get rid of Poverty and a beggar-free India. I also submitted the suggestions for Lucknow DEWG G20 meeting on 22.01.2022 to achieve "zero hunger (SDG 2)". Also, I submitted my suggestion about Inviting Ideas to celebrate the 100th episode of Mann Ki Baat. On 31.01.2023, I requested our Honorable Prime Minister for the action plan of One Earth, One Family, One Future, for Zero Hunger (SDG2). For that, I got the action plan through our Honorable finance minister's speech. (link - <https://www.youtube.com/watch?v=WPD7t6qp0Q8>) Thank you very much for the effort taken to get rid of Poverty.

About my Idea:

Each area of India is constituted by the Government service sectors like Panchayat, Town Panchayat, Municipality, Metropolitan, revenue, and health departments. It is their responsibility to find out the helpless poor people, beggars and help them to get the government scheme. It's their duty to find out the people who are without Aathar cards and ration cards in their area. The major contributed service sector staff will be honored with an Award by the Government of India.

Further, appoint a committee to scrutiny each and every area of India to find out any people without the facility. If find more numbers, that area service sector will be punished by the Government.
